Capitalisation workshop BUILDING FOR TOMORROW

Tolmin, June 2015

Capitalisation workshop was organised together with CABEE project and delivered a constructive debate on sustainable construction. Soča Valley Development Centre presented several outputs, developed through different projects (AlpBC, Cabee, Enerbuild, Camis), that offer interesting solutions based on regional /local characteristics.

Participants of the round table (representatives of Ministry of the Environment and Spatial Planning, Triglav National Park, Building and Civil Engineering Institute, Municipality of Idrija and architects) dealt with issues, like:

Vsebine:

-vloga države pri spodbujanju trajnostne gradnje in nacionalna zakonodaja na tem področju
 -certificiranje trajnostne gradnje
 -od zelenih k trajnostnim javnim naročilom
 -izkušnje občin kot investitorjev in kot prostorskih načrtovalcev

- -javne institucije kot zgled
- prostorsko načrtovanje kot spodbuda trajnostne gradnje
 ohranjanje stavbne dediščine
- -ohranjanje stavbne dediščine
 -domače znanje in lokalni material

Širša razprava

K razpravi ste vabljeni predstavniki občin, upravnih enot, Triglavskega narodnega parka, fakultet, Zbornice za arhitekturo in prostor Slovenije, Zavoda za varstvo kulturne dediščine, Zavoda za gradbeništvo, Urbanističnega inštituta, prostorski načrtovalci, ponudniki trajnostnih materialov in storitev ...

Projekta AlpBC in CABEE, ki se izvajata v okviru programa Alpine Space, sta sofinancirana s strani Evropskega sklada za regionalni razvoj.

• can spatial planning contribute
to a more sustainable
construction?
 accessibility of local materials
 can public sector offer an
example?
 role of the municipalities as
investors and planners
 local knowledge and
experience of our forefathers –
can we use it today?
 certification and sustainability
 what is the role and
responsibility of the
government institutions,
etc.
